Hip Disease can be Cured! CITY OF PHILADELPHIA, SS.—Personally appeared before me, the subscriber, MR. HONORA TILGNER, residing No. 720 Chestnut Street, who being duly sworn, doth depose and say that he was afflicted with Hip Disease, in the month of August, 1868, and discharged as incurable, hobbled by Dr. Rutledge's Office on crutches, a terrible sufferer at once, and unable to walk, and was relieved from all pain. I kept improving until, in the month of February, 1869, I was enabled to walk as well as usual. My right hip remained perfect ever since. Language cannot express my gratitude to Dr. Rutledge, and how much I can conscientiously recommend the Doctor to the afflicted.

SCHEENCK'S COLUMN.

J. H. RUTTLEY, M. D. CONSUMPTION CAN BE CURED. READ THE EVIDENCE.

"Facts are stubborn things," and it is to facts alone that it is desired to direct the attention of the readers of this article.

Many years of severe and thorough practical trial have demonstrated beyond the peradventure of a doubt the fact that the medicines prepared by me, and known as SCHEENCK'S MANDRAKE PILLS, SCHEENCK'S SEAWEEK TONIC, and SCHEENCK'S PULMONIC SYRUP, have proved extraordinarily successful in the cure of diseases of the Pulmonary organs, or what is usually termed CONSUMPTION.

I am fully aware that there are many persons whose prejudices rule them so completely that "proofs strong as Holy Writ" would fail to convince them of the efficacy of my remedies; and that there are others who, under no circumstances, could be prevailed upon to admit their merits, simply because such an admission would prove detrimental to their particular personal interests.

Fortunately for the welfare of mankind, these doctored people form a comparatively small portion of the community at large. They are to be found here and there, but, compared with the great mass of the world's population, their numbers are so small that I dismiss them, and address myself to those who are willing to listen to the dictates of reason, and who are disposed to admit the strong logic of well-established facts.

We are told almost daily that Consumption, the scourge of the American people, is incurable, and that a man whose lungs are diseased must be given over to die; that he must abandon hope, and that the arrangement of his temporal as well as spiritual affairs should claim his earliest attention. If there were not facts as undeniable as that the sun will shine in a clear heaven at mid-day, and that the planets will affectionately inform us of their positions, I should feel unwilling to take up the gage of battle against them; but, fortified with results—facts—which neither theory nor mere assertion can overturn, I propose to prove that CONSUMPTION CAN BE CURED, and that the medicines prepared by me, THE MANDRAKE PILLS, SEAWEEK TONIC, and PULMONIC SYRUP, will, if used in strict accordance with the directions, in a majority of cases effect that which the faculty pronounces impossible—they will cure Consumption.

An ounce of solid fact is worth a pound of theory. Let me, therefore, present the facts connected with my own individual experience. Many years ago I was a confirmed consumptive, and, like thousands of other unfortunate ones, was given up to die. Eminent physicians pronounced me that my case was hopeless one, and told me that if I had any preparations to make for the final solemn event, that I had better make them speedily. I believed this just as confidently as I believe that the planets will affectionately inform me that my days were numbered, and that recovery was impossible. Still, the desire to live lingered in my bosom. I was young, and clung to life with the same tenacity that young men, and old men too, cherish their lives, and were willing to abandon hope as long as a single vestige of it remained. I had full faith in the sad information conveyed to me by my physicians, but still there was a lingering belief that something could be done, though I knew not in what direction to seek for the much-desired relief.

It was at this gloomy and eventful period of my history that I first learned of the roots and herbs from which my remedies for this dreaded disease are now prepared. I procured and used them, and, to the utter astonishment of all physicians, friends, and neighbors—began to improve. My entire system commenced to undergo a complete renovation. Expectoration, which formerly had been difficult and painful, now became comparatively easy, and I was able to take large quantities of offensive yellow mucus at the same time my long-lost appetite returned. I ate freely of such food as was palatable to me, and which was at the same time nutritious and wholesome. Expectoration became less copious and less offensive, existing only when necessary; the racking and harassing cough abated; the fever broke; the pain departed; flesh planted itself on my sadly-wasted frame, and with fresh came strength and full health. From a mere old man I became a young man, robust man, and I have maintained both strength and health to this day. I weigh two hundred and thirty-five pounds; I am blest with an appetite voracious to but few men, while my digestive organs are equally equal to the requirements of a healthy condition of my system.

Now, be it remembered, all these wonderful changes were wrought by the use of the medicines I prepare—MANDRAKE PILLS, SEAWEEK TONIC, and PULMONIC SYRUP. A cure seemingly so miraculously created, and so astonishing in the minds of those who knew me, I was literally besieged on all sides. I had visitors daily who besought me to give them the remedies which had wrought the wonderful restoration and had wrested life from the very jaws of death. Letters were received by scores importuning me to impart the secret and inform the writers where the specifics for consumption could be obtained. Others, who were too weak to travel, not satisfied with writing, sent for me and consulted me in regard to their cases, and to all these applications I responded as I was able.

I had fully regained my health, and gratitude for the happy result prompted me to turn my attention to the science of medicine, with a view to curing other cases of the same nature to my suffering fellow-creatures. I devoted myself closely to my studies, and more especially to that branch of them relating to the terrible disease from which I had suffered so long and so much. I investigated it in all its fearful phases, in order to assure myself that my case was not an exceptional one. The closer my investigations the more satisfactory were my conclusions. I felt convinced that tens of thousands of my fellow-creatures were dying annually from consumption whose cases were not as dark as mine, and apparently hopeless as mine had been, and I argued from this that remedies which had proven so effective with me would prove equally so with others. I prepared my medicines in a pleasant and attractive form, and caused them to be sent to the world. The results are well known. Thousands of suffering men, women, and children, who were on their way to the grave, have been cured, and are to-day living evidences of the fact that CONSUMPTION CAN BE CURED, and I think I may say, without arrogating to myself any more than is justly my due, that I have had as much experience in the treatment of consumption as any other person in the country, and that my success has been wonderfully great.

Let the reader remember that these are not mere fancied statements. They are positive living facts of which I am the living evidence. There is an old adage which says, "What has been done may be done again." I have been completely cured of consumption by the remedies I now offer to the public. Thousands of others have testified to similar happy results from their use, and thousands of others still might be benefited as I have been, if they but prevailed upon to try the virtue of THE MANDRAKE PILLS, SEAWEEK TONIC, and Pulmonic Syrup. All that is necessary to convince the most skeptical of their merits is a fair trial.

Full directions accompany each of the medicines, so that it is not absolutely necessary that patients should see me personally, unless they desire to have their lungs examined. For this purpose I am personally at my PRINCIPAL OFFICE, No. 15 N. SIXTH Street, corner of Commerce, EVERY SATURDAY.

Advice is given without charge, but for a thorough examination with the Respirometer the price is five dollars.

Price of the Pulmonic Syrup and Seaweed Tonic, each \$1.50 per bottle, or \$7.50 a half dozen. Mandrake Pills, 25 cents per box.
